

WEDGE MOBILE SECURITY NETWORK APP

Secure Mobility and Prevent Network Abuse

Mobile activities and devices are now entrenched in society, with users increasing their access to the multitudes of content, social network, and data sharing services on the go. Because of the increasing usage and vulnerability of mobile devices they are at the forefront of attacks, resulting in user dissatisfaction, data loss, and network degradation.

Wedge Networks'™ Mobile Security enables the secure usage of mobile devices solving the phishing, malware, network abuse, blended attacks and data security within your network or while roaming.

The Difference

Wedge brings together powerful Deep Content Mobile Security with the high performance of the WedgeOS™ platform, providing unmatched accuracy and throughput, featuring:

- **The most comprehensive mobile threat detection** - with over 2 Billion sources in over 165 countries Wedge has world-class threat intelligence partners, cloud sourcing, and research labs providing the most up-to-date and dynamic threat protection.
- **Universal device and application protection** - securing all device types, OSs, applications, data, web browsing, messaging and content.
- **Protection from blended attacks** - utilizing patented cross-session / cross-protocol support to stop blended threats that affect mobile devices, including everything from outbound data leaks to threats hidden in messages, social-networking web pages, mobile apps and rich content.
- **Lowest TCO with lightweight provisioning** - reduces implementation and management overhead with zero end-point device footprint.

“...we have seen an increase in enterprise and government organizations with BYOD policies looking for network security as a key feature...”

- Frost & Sullivan

SECURES DATA IN ALL APPLICATIONS

- Web
- Games
- Mobile Apps
- SMS / MMS
- App Stores
- HTML5
- Email
- Social Networking
- Mobile Payments
- Content on Demand

SOLUTIONS

Mobile Users

- Stops messaging threats.
- Stops mobile malware.
- Protects important data on device.

Enterprises

- Protects endpoints both on the network and while roaming.
- Secures from blended attacks.
- Most comprehensive malicious code protection for both email and the web on mobile devices.

Service Providers

- Eliminates bandwidth abuse.
- Reduces network maintenance and infrastructures costs.
- Solidify subscriber trust.
- Improve and enhance network quality.
- Stops outbound spam to prevent IP or domain blacklisting.

All Your Network Security Apps - One OS

WedgeOS™ platform provides the next generation security infrastructure to detect, protect against, and control threats, information leaks, and allows future security functions to run on the network.

Accuracy

- Deep Content Inspection
- Best of Breed Services

Network Apps

- Universal Platform for Network Apps
- Anti-Malware, Anti-Spam, DLP, Mobile Security, Web Filter, Web Application Control.

Performance

- Patented Performance
- Unlimited Scalability
- Massive Threading Architecture
- Low Latency

Integration

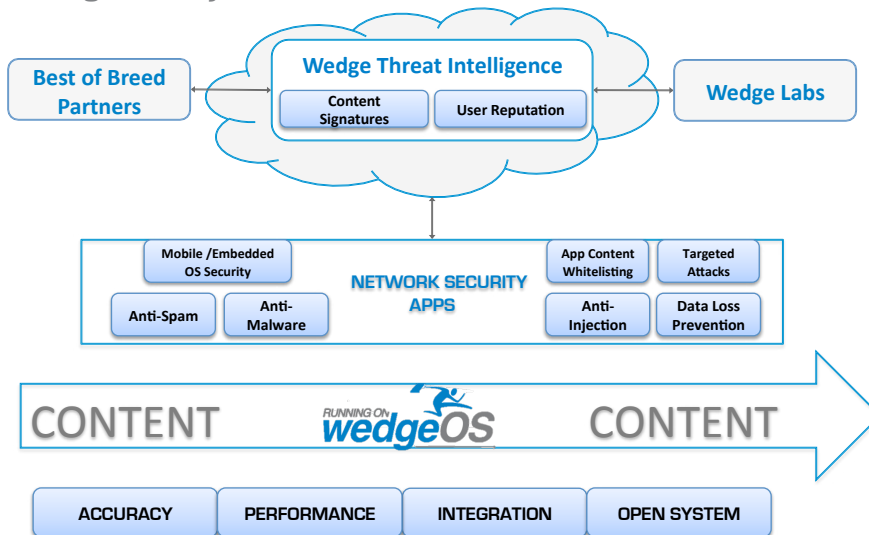

- L2 Transparency with Stealth Routing
- Identity-Aware Policies and Analytics
- ICAP, WCCP, Explicit Proxy,
- Web Console, RESTful API, SNMP, CLI
- Load Balancing / High Availability

WedgeOS™ Form Factors

- Wedge Hardware Appliance
- Wedge Virtual Machine
- Wedge Cloud / SaaS
- Wedge Cloud Network Defense™ (as an NFV-S instance)

Wedge Ecosystem

Wedge Networks™, Inc.

is transforming how network security is delivered. Its innovative Cloud Network Defense™ is a true cloud network security platform designed to deliver the elastic, embedded and comprehensive security that is required to combat the shifting threat landscape associated with today's cloud connected world. Unlike first generation security products, cloud-assisted appliances or even dedicated security clouds, Cloud Network Defense™ enables inline inspection of both inbound and outbound traffic embedded within the cloud layer across all platforms and device types without latency. Wedge's products are deployed globally, delivering security protection for tens of millions of users in Fortune 500 companies, government agencies, Internet service providers, and across all industry verticals. Wedge Networks is headquartered in Calgary, Canada, and has international offices in Dallas, USA, Beijing, China, and Manama, Bahrain.

Awards

Wedge Instant-On Program

The Wedge VM™ is available for free trial through the Wedge Instant-On program. The free evaluation comes with 45-day trial license for all services.

Our extensive Product Evaluation Program allows you to experience the Wedge Content Security platform as part of your decision process.
